PROFESSIONAL SUMMARY

Computer Science graduate specializing in UI/UX design, with hands-on experience in user interface design, user experience principles, frontend development, AI-assisted design and development, motion graphics, and video editing. Completed the Aspire Internship Program, gaining practical experience in professional workflows and digital product development. Passionate about creating intuitive, visually engaging, and user-centered digital experiences, with a strong understanding of both design and frontend implementation.

TECHNICAL SKILLS

UI/UX Design: Figma, Wireframing, Prototyping, User Research, Usability, Testing, Design Systems.

Motion Graphics: Figma Motion, Micro-interactions, Animated Prototypes, Smart Animate.

Frontend Development (AI-assisted): React, Tailwind CSS, Responsive Design.

Video Editing (Beginner): Da Vinci Resolve.

AI Tools: Claude, ChatGPT, Gemini, AI-assisted Coding.

Tools: Git, Github, Vs Code, Figma, Da Vinci Resolve

EDUCATION

Bachelor of Science in Computer Science and Engineering

2022 – 2026

Premier University

Chittagong, Bangladesh

- CGPA: 3.46 / 4.00

- Thesis: Automated Fault Detection and Localization in Algorithm Flowchart.

EXPERIENCE

UI/UX Designer Intern

Nov 2025 – Feb 2026

NexGenix Ltd.

IT Business Incubator, CUET.

- Designed **6 web and mobile applications** in Figma, creating wireframes, user interfaces, and interactive prototypes focused on intuitive navigation and usability.
- Created **70+ mockups** across mobile, tablet, laptop, and desktop screen sizes to ensure consistent user experiences across devices.
- Conducted **user research and A/B testing** to gather user feedback, validate design decisions, and identify opportunities for usability improvements.
- Collaborated with the development team to translate UI/UX designs into **MVP implementations** and support the product development process.

PROJECTS

NATUREVERSE – UI/UX design.

Jul 2026 – Sep 2026

Figma

[View Nature verse](#)

- Designed a mobile application for **novice farmers**, providing crop recommendations based on soil parameters such as **N, P, K, and pH levels**.
- Designed user flows and interfaces for AI-powered features, including **crop disease detection** and other agricultural assistance tools.
- **Co-created and prepared datasets** with a teammate and contributed to **training machine learning models** for the application's AI features.
- Served as the **Lead UI/UX Designer and AI Model Designer**, leading the design process and contributing to the development of AI-driven features.

Aspire Internship Program

Dec 2025 – Jan 2026

Figma

aspireinternship.thenexgenix.com/

- Designed the **Aspire Internship Program website** for NexGenix Ltd., creating **20+ screens** with modern, interactive, and user-centered interfaces.
- Developed user flows, layouts, and interactive prototypes to deliver a consistent experience across the website.
- Served as the **Lead UI/UX Designer**, overseeing the overall design direction and ensuring visual and usability consistency.

CERTIFICATIONS

User Experience (UX Design)

2025

EDGE Project, Bangladesh Computer Council (BCC), ICT Division.

Aspire Internship program

2026

PDA, held at IT Business Incubator (ITBI), CUET.
